

# Double your marketing while updating your information once

Showcase your Listings on your company website like never before. With a newly upgraded CDXDirect - Xceligent's powerful private-branded marketing tool – you can maintain a current listings inventory on your company website simply by updating your listings with Xceligent.

## Good for You

- Updated listings in CDX automatically update to your website
- Custom templates determine how information is presented
- Better & more detailed information for potential clients

## Good for Your Clients

- Run reports & map properties on spaces that meet their needs
- Visitors to your site can email listings to other potential clients – *directly from your site.*

## Customize the: Property Search

## Search Results

## Property Detail

## Match the Look-&-Feel of Your Website

## Streamline Listing Updates

Update your listings with Xceligent for real-time updates on your website.

## Control What Information is Displayed

Choose from available templates, or have Xceligent build you a custom layout.

## Generate Quick-Print or Detailed Reports

Visitors can “quick-print” information or create more detailed reports from their search results.

## View Your Listings on a Map

Fully integrated “Map-It” function allows visitors to map multiple listings or a single listing directly from your web site.

## Display Multiple Images on Detail Page

Your listings will have even more appeal when clients can see even more images. Photos, site plans, aerials, etc., can be automatically displayed on the detail page.
